**2023-2024 Progress Report**

# ASPIRING TO BE THE BEST

## MISSION

Muskegon Community College, dedicated to equity and excellence, prepares students, builds communities, and improves lives.

## VISION

An educated, inclusive community

## VALUES

Learning ♦ Integrity ♦ Excellence ♦ Collaboration ♦ Kindness

### Your Community's Plan

The **Muskegon Community College 2022-2026 Strategic Plan: Aspiring to Be the Best** was created with the input of 46 organizations and 2,354 students, alumni, business leaders, and other community members. Their collective insights identified three critical priorities: access, equity, and excellence. The overall aim of the plan is to position MCC as **one of the best community colleges in the nation**.

### What Makes a Community College the Best?

MCC is focused on student success! The 2022-2026 strategic plan aims to increase enrollment among underrepresented groups and meet the criteria for the top student success awards from the leading student success organizations: the Achieving the Dream Leah Meyer Austin Award, Achieving the Dream Leader College of Distinction, and the Aspen Prize for Community College Excellence. These prestigious awards are based on student success data related to access, equity, access, graduation rates, and post-graduate success.

### See Our Progress

This progress report summarizes our progress toward meeting the ten strategic plan goals that were established with student and community input. Each of the ten overarching goals has at least one measurable objective. As of the end of the last fiscal year, June 30, 2024, the plan includes 23 measurable objectives and we are 56% through the 54-month implementation period. The plan concludes June 30, 2026. This report provides the metrics for each objective plus metrics related to the annual key performance indicators that are set by departments each year in support of strategic plan goals.

### Provide Your Suggestions

Stakeholder input continues to be a vital part of the process!
